THE UNIVERSITY OF CHICAGO

1. The first part of the paper is devoted to the study of the properties of the function $f(x)$ defined by the equation $f(x) = \sum_{n=0}^{\infty} a_n x^n$, where $a_n = \frac{1}{n!}$. It is shown that $f(x)$ is a continuous function on the interval $[0, 1]$ and that it is differentiable on the interval $(0, 1)$. The derivative of $f(x)$ is given by the equation $f'(x) = \sum_{n=0}^{\infty} a_{n+1} x^n$.

From the University of California, Berkeley, California, U.S.A.

in Lithuania. According to testimony by witnesses, the actions of the Lithuanian police go far beyond the limits of a police force or militia. In a number of places, officers with Lithuanian backgrounds have taken a number of steps toward creating a militia force and are in contact with the army, which has been ordered to join the Lithuanian police in forming a militia force.

O Cantinho

1. The first step is to identify the problem. This involves understanding the symptoms and the context in which they are occurring.
